

Muhammad Kazim

Passionate and detail-oriented front-end developer with 6+ years of experience in building and optimizing user-centric web applications. Proficient in modern frontend technologies, including ReactJS, TypeScript, and Next.js. Skilled in translating design concepts into fully functional, responsive web interfaces. Adept at solving complex problems, collaborating with cross-functional teams, and continuously learning new technologies to drive project success

EXPERIENCE

Tintash, Remote — *Frontend Web Developer*

April 2021 - PRESENT

- Developed and maintained a variety of web applications across multiple domains
- Enhanced application performance by implementing efficient coding practices and proactively identified and resolved critical bugs to deliver high-quality front-end applications
- Integrated an AI-powered chatbot using OpenAI and LangChain to enable intelligent, document-aware assistance within web applications, enhancing user engagement and support capabilities
- Collaborated with UI/UX designers, backend developers, and product managers to ensure seamless user experiences
- Employed agile methodologies and version control systems like Git for efficient project management and collaboration

Kavtech, Lahore, Pakistan — *Frontend Web Developer*

September 2018- March 2021

- Developed and optimized the core frontend using React, enhancing performance, usability, and core maintainability
- Collaborated with backend and cross-functional teams to integrate APIs, align development with project goals, and uphold best practices

PROJECTS

OurExpertDoc — *Lead Frontend Engineer*

A health care platform enabling patients to access expert medical advice, where I led the frontend development to ensure a seamless user experience

- Optimized web performance, improving website score from 38% to 91%
- Integrated a headless CMS, enabling dynamic content management for blogs and vlogs
- Built and integrated an AI-driven chatbot using OpenAI and LangChain, enabling users to get instant, context-aware answers from key site documents and medical sections
- Enhanced SEO, accessibility, and overall site responsiveness while improving code maintainability

Tools & Technologies: React.js, Redux, JavaScript, Contentful CMS, MUI, Figma

- Javascript
- React.js
- Next.js
- Typescript
- CSS
- SASS
- Redux
- Tailwind CSS
- MUI
- Ant Design
- Figma
- Contentful
- ClickUp
- Node.js
- Express.js

Education

Bachelor of Science Computer Science

FAST NUCES University

2013 - 2017

Lahore, Pakistan

Other Projects

Other Projects where I contributed as a Frontend Engineer:

- Gamerize
- Strategic Gears

Camaradly — *Lead Frontend Engineer*

An employee engagement and feedback platform aimed at improving workplace culture. Led frontend development, enhancing UI/UX, and optimizing performance

Tools & Technologies: ReactJS, Redux, JavaScript, SASS, MUI, Figma

PM Playbook — *Frontend Engineer*

An application to streamline project workflows, guiding Project Managers through stages like Discovery, Lead Conversion, Development, Polishing, and Release.

Developed the admin portal from scratch, ensuring consistent best practices and quality as the organization grows

Tools & Technologies: React.js, Redux, JavaScript, SASS, MUI, Figma

MynaSwap— *Frontend Engineer*

A platform for trading and selling physical collectibles, allowing customers to list assets, control details, and handle bids or counteroffers. Once finalized, trades or sales are redeemed and delivered back to the customers. Developed the admin portal, maintaining code quality, and resolving issues

Tools & Technologies: Next.js, React admin, JavaScript, Figma

Tweedl— *Frontend Engineer*

A music and artist engagement app designed to connect musicians with fans. Managed frontend development, implemented new features, and optimized deployment on AWS

Tools & Technologies: React, TypeScript, Ant Design, Figma, AWS
